

CEDAR BASIN

JAZZ FESTIVAL

May 4, 2010

To Whom It May Concern:

Members of the Cedar Basin Jazz Board of Directors voted unanimously on March 17, 2010, to express our enthusiastic support of the Island Park Beach House project's redevelopment effort using private funds. Although our festival's existence is a 'mere' 33 years compared to the lengthy history of the Beach House, we feel a strong tie to it. Our festival began in Island Park; and even with our move downstream in the mid-1980s, we continue to be located along the same expanse of water—the Cedar River.

We recognize the structure's rich history and recreational tradition, and hope its redevelopment may continue well into the future.

Sincerely,
